IPTV
Zone

the IPTV Zone experience

The IBC2010 IPTV Zone in association with BPL Broadcast Ltd and IT Europa

The demand for IPTV has shown explosive growth over the last 12 months. Recent research by MRG, Inc predicts that the number of IPTV subscribers worldwide will continue to grow at 31% per year to reach 83 million by 2013, creating a \$38 billion marketplace for services alone.

The IBC2009 IPTV Zone will bring together many organisations and technologies emerging as major forces in this new market. It will therefore provide a unique opportunity for application developers, content providers and technology companies to showcase their capabilities at the heart of the broadcast industry's leading international conference and exhibition.

An accompanying programme of IBC Exhibition Business Briefings will examine some of the issues and opportunities arising from the emergence of IPTV as a major force in more detail. Amongst the subjects addressed at this year's Business Briefings will be the impact of new technologies on traditional revenue streams and the emergence of new business models and funding mechanisms.

Now in its fourth year, the IBC2010 IPTV Zone has been expanded in 2010 to form a hub for a new area and visitor attraction showcasing advances in connected consumer devices, the key technologies emerging in IPTV and demonstrating the enormous potential that exists in this sector.

About IBC

IBC is the leading international forum for the electronic media industry, attracting more than 45,000 visitors from 140 countries. It combines a highly respected and peer reviewed conference with an exhibition featuring more than 1300 exhibitors demonstrating the state of the art in media technology, from radio and television broadcasting to digital signage and 3D cinema.

Visitors can expect to learn about the developments which are shaping the industry, interact with the latest technology, experience world first demonstrations and do business in a professional and supportive environment. IBC is the event not to be missed for everyone involved in the world of content creation, management and delivery.

the IPTV Zone experience

IBC Exhibition Business Briefings

The IBC Exhibition Business Briefings are popular free-admission sessions that allow exhibitors large and small to share their insights into the impact that new distribution technologies are having on the content creation, management and delivery experience.

Now in their fifth year, these free-admission sessions attract IBC visitors keen to understand the opportunities being created by IPTV, Broadband, Mobile and Digital Signage.

The Exhibition Business Briefing agenda is set by the participating companies, and reflects the interaction of the latest technical, regulatory, market and business trends. Nominated topics are organised by IBC into themed 1½-hour sessions consisting of three presentations to create a compelling Exhibition Business Briefing agenda.

Extensive promotion by IBC, BPL and IT Europa, combined with an easily accessible venue, make the Exhibition Business Briefings a prominent and topical highlight of the IBC Exhibition experience, adding value for exhibitors and visitors alike.

Exhibition Business Briefings presentation slots are included in all Mobile IPTV Gold Sponsorship packages.

The agenda and downloadable mp3 recordings of the IBC2009 Exhibition Business Briefings are available at www.ibc.org/businessbriefings

“OpenTV was able to conduct a significant amount of business due to the quality of the contacts at IBC this year. The majority of our customers and partners agreed that the contacts and meetings were far superior than in previous years. As a result of IBC, we were able to cost effectively touch almost all our customers and partners. We were also able to conduct productive meetings with members of the media, resulting in great coverage of our IBC news. OpenTV will definitely be back in 2010.”

Darrell Haber, Open TV
